Winter 2021 Addendum

Happy Adopters Happy Cockers

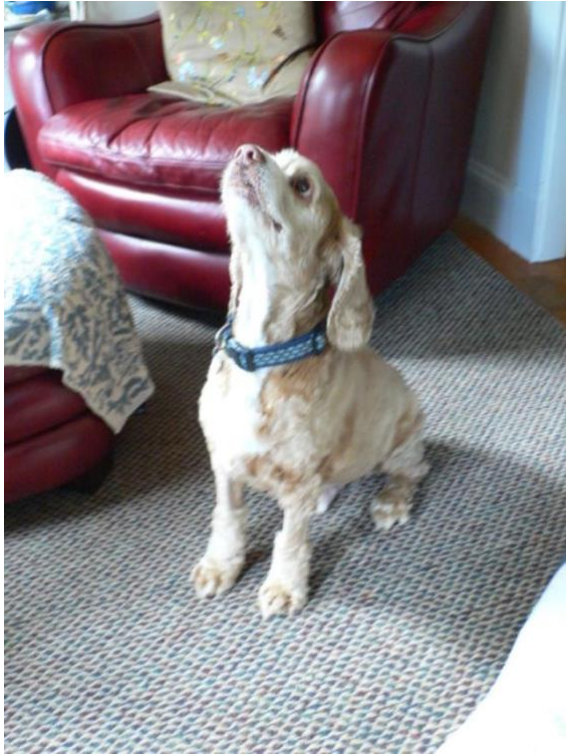

(3 sweet pups who didn't make the printed newsletter)

---

After the boss let his Daddy take him into the office for the day, Malachi worked so hard that he had to take a long nap.

For a 14 year-old he has the energy of a pup. He is not just a sweet, well-tempered dog. Pepper is very bright, alert and curious. After four weeks he has settled in brilliantly and wants to be around us all the time. He clearly prefers to be the only dog which made him a perfect match for us. Walking is a workout with him at a park, college campus or along the riverfront where his nose is constantly taking in the scents and his eyes don't miss a thing. We're so grateful to Cocker Spaniel Rescue New England for our wonderful new companion, Pepper!

Penny has been through ear infections, steroid withdrawal, eye surgery, ongoing stomatitis and heart disease. Through it all, she's been a happy girl. She loves going for walks, riding in the car, meeting people, and, of course, her treats. Penny's tail never stops wagging! She's claimed spots on the sofa and Dennis' recliner as well as the end of our bed, she's a Daddy's girl, and she "bounces" wherever she goes!
